Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170  
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

My wireless phone usage is strictly for safety and security. I only use it when I am on the road and have an emergency or need to contact my wife if I am seriously delayed due to traffic problems. Please quit bleeding us infrequent, low end users to support others. If the Universal Service Fund is to support communications in rural areas, then let those people pay the higher fees. They freely choose to live in remote areas knowing that these kinds of services are going to cost more.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Edwin R Davis
